**Subject:** Invitation BSUN - EGI Summer School on "Federated Digital Infrastructures in Education, Scientific Research and Innovation"

**Follow Up Flag:** Follow up  
**Flag Status:** Completed

Distinguished President Kaisis,

We are pleased to invite you to the **Summer School on “Federated Digital Infrastructures in Education, Scientific Research and Innovation”** organized between **5 and 9 September, 2022**, by the **Black Sea Universities Network (BSUN)** in collaboration with **EGI Foundation**.

The event will be held at “Politehnica” University of Bucharest.

This Summer School is the first of a series which is organized under the frame of the Memorandum of Understanding between the Black Sea Universities Network (BSUN) and European GRID Infrastructure Foundation (EGI). The aim of the summer school is to provide introductory courses on the Federation of Digital Infrastructure and is dedicated for MSc students and PhD students from the BSUN member universities and service providers from universities and research institutes interested in Federating services and resources with EGI and European Open Science Cloud (EOSC).

The main outcome of this Summer School will be proof-of-concept and pilot federated use cases that can be implemented by EGI in collaboration with the participating service providers and potentially interested students from BSUN member universities.

We shall be extremely grateful if you will accept to advertise the Summer School internally within your university and networks, particularly to students and service providers that might be interested to participate in this event.

**More information can be found on the official website of the event:**

**The interested parties have to fill online the relevant Application form at the following link: [Application form](#).**

For any further detail, the entire team of the Black Sea Universities Network - International Permanent Secretariat remains at your disposal!

**Prof. Dr. Eden MAMUT**

Secretary General  
Black Sea Universities Network
